Residential Sampling in Telluride

...

Cynthia – Here is what I received from Doug Jamison. Until we locate and review the reports Doug identified, we can't say for sure whether there were any aerial surveys conducted, although I would doubt it.

At this point, unless you think we have a specific need to respond further to Mark Esper in the near-term, I'd suggest we postpone that response until we have more information.

Thanks,
Steve

Subject: Mark Esper's question about aerial photos of other communities

Hi, All.

I'm wanting to get back to Mark Esper about aerial photos of other communities. Steve, it sounds as though you have the state covered. Are you waiting for more information, or can we say that as far as we know, no such photos have been taken by the state in the communities he mentioned?

Paula, who should I contact at USGS to see if they have done this type of work elsewhere? Would it be Rob Runkel?

Thanks!

Cynthia Peterson
